## **DETAILED ACTION**

### ***Priority***

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Drawings***

2. The drawings filed on August 14, 2006 are accepted by the Examiner.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 to 3 are rejected under 35 U.S.C. 102(b) as being anticipated by each of Sato et al. (Sato '970, EPO Document No. EP 1 308 970 A2, cited in the IDS submitted October 16, 2007); Sato et al. (Sato '944, Japanese Patent Document No. 2004-111944, cited in the IDS submitted August 14, 2004); and Sato et al. (Sato '867, Japanese Patent Document No. 2004-153867, cited in the IDS submitted August 14, 2006).

Each of the references teaches a process that is encompassed by the process recited in applicants' claims 1 to 3 (see, Sato '970, pages 6 and 7, paragraphs [0027] and [0028]; Sato '944, paragraphs [0014] and [0032]; and Sato '867, paragraphs [0020] and [0024]). Applicants' claimed process does not distinguish over the process taught by each of the references.

### ***Double Patenting***

5. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140 F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1 to 3 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1 to 5 of U.S. Patent No. 7,201,809 and claims 1 to 7 of U.S. Patent No. 6,984,270. Although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed process in '270 and '809 overlap the instantly claimed process. A prima facie case of

Art Unit: 1793

obviousness exists when the claimed invention overlaps the disclosed prior art In re Geisler 43 USPQ2d 1365 (Fed. Cir. 1997); In re Woodruff, 16 USPQ2d 1934 (CCPA 1976); In re Malagari, 182 USPQ 549, 553 (CCPA 1974) and MPEP 2144.05.

Claims 1 to 3 are directed to an invention not patentably distinct from claims 1 to 5 of U.S. Patent No. 7,201,809 and claims 1 to 7 of U.S. Patent No. 6,984,270 which are commonly. Specifically, although the conflicting claims are not identical, they are not patentably distinct from each other because the claimed process in '270 and '809 overlap the instantly claimed process. A prima facie case of obviousness exists when the claimed invention overlaps the disclosed prior art In re Geisler 43 USPQ2d 1365 (Fed. Cir. 1997); In re Woodruff, 16 USPQ2d 1934 (CCPA 1976); In re Malagari, 182 USPQ 549, 553 (CCPA 1974) and MPEP 2144.05.

6. Claims 1 to 3 are rejected under 35 U.S.C. 103(a) as being obvious over U.S. Patent Nos. 7,201,809 and 6,984,270.

The applied reference has a common inventor and assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art only under 35 U.S.C. 102(e). This rejection under 35 U.S.C. 103(a) might be overcome by: (1) a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not an invention "by another"; (2) a showing of a date of invention for the claimed

subject matter of the application which corresponds to subject matter disclosed but not claimed in the reference, prior to the effective U.S. filing date of the reference under 37 CFR 1.131; or (3) an oath or declaration under 37 CFR 1.130 stating that the application and reference are currently owned by the same party and that the inventor named in the application is the prior inventor under 35 U.S.C. 104, together with a terminal disclaimer in accordance with 37 CFR 1.321(c). This rejection might also be overcome by showing that the reference is disqualified under 35 U.S.C. 103(c) as prior art in a rejection under 35 U.S.C. 103(a). See MPEP § 706.02(I)(1) and § 706.02(I)(2). Each of the references discloses a process that overlaps the process recited in applicants' claims 1 to 3 (see, 6,984,270, column 6, line 36 to column 7, line 13; and column 13, lines 35 to 47; and 7,201,809, column 3, line 40 to column 4, line 15; and column 8, line 56 to column 9, line 18). A prima facie case of obviousness exists when the claimed invention overlaps the disclosed prior art In re Geisler 43 USPQ2d 1365 (Fed. Cir. 1997); In re Woodruff, 16 USPQ2d 1934 (CCPA 1976); In re Malagari, 182 USPQ 549, 553 (CCPA 1974) and MPEP 2144.05.
